September 26 - Earth Rangers

Earth Rangers (September 26, 2019)

The Earth Rangers School Assembly is a dynamic and interactive presentation for Grades K through 6. Through the power of live animal demonstrations and positive, science-based information, our program educates students about the threats facing animals and the environment, highlights real conservation initiatives across Canada, and motivates them to get involved.

This year's Assembly will focus on how plastic pollution is impacting marine animals, the impacts of food waste on terrestrial habitats, and the importance of reducing our overall consumption. The presentation will provide students with tangible ways they can help address these issues—and the big collective impact those actions have!
